

Sr. ClearCase Consultant

Objective: Provide assistance with implementation of configuration management, process creation, and process creation and control through the use of ClearCase. Seek position to enhance the overall quality of software configuration and release control at the project, department or enterprise level. Provide implementation so departments could evolve to higher compliance states in order to develop their code more quickly and with less cost.

Education: Broome County College – Binghamton, NY – A.A - 1994
 University of Texas at Arlington – (Computer Science) 1996-1997
 State University of New York at Binghamton, NY – (Psychology) 1994-1995

Training: **Rational University** – ClearCase Administration on UNIX v4.0 – 2/2001
Rational University – Rational ClearCase Fundamentals for Windows – 10/2000
Brainbench – UNIX Korn Shell Scripting – 3/2001

Clearances: Cleared for **Secret** information based on single scope background investigation while working at Hughes Training, Inc and Raytheon.

ClearCase/CM Related Skills	Description:	Level:	Last used:	Years Experience:
	ClearCase Administration (installation, administrative training, trouble shooting, implementation, triggers, backups)	Advanced	Currently used	11 years
	ClearTrigger & ClearWeb	Advanced	Currently used	7 years
	Build Management (managing, creating, tracking, packaging, delivery)	Advanced	Currently used	8 years
	UNIX Operating Systems (SGI, Solaris, HP-UX, LINUX)	Advanced	Currently used	11 years
	InstallShield 11, 10.5, 10, 5, MP (development and maintenance of UNIX based GUI installations)	Advanced	Currently used	8 years
	Training/Mentoring	Intermediate	Currently used	8 years
	Programming Languages: shell scripting (ksh), php	Intermediate	Currently used	8 years

ClearCase Experience: **A Better Solution, Inc.** - Atlanta, Ga. 2006 - Present
 SR. CLEARCASE CONSULTANT
Software Configuration Management: Consulting concentrating on CM practices and implementation using ClearCase, ClearCase with UCM, MultiSite and ClearQuest. Design and implement process automation and simplification. Assist in Planning and migration of code bases to ClearCase from other CM tools. Train ABS clients in the effective use of ClearCase, UCM and CM practices. Responsibilities also include overseeing workstation/server configuration, COTS tools install/config, writing utilities to extend the capabilities of COTS tools and creation of makefile sub-systems to automate builds.

Convergys – Saint Louis, MO / Lake Mary, FL.

1999-2003 / 2001-2005

SR. PROGRAM ANALYST – CONFIGURATION MANAGEMENT

- CM tools administration and user support (ClearCase, ClearTrigger, WMS). Tier 2 and Tier 3 support for problems with ClearCase on users workstations. Support multiple users over multiple projects and multiple locations using UNIX, NT clients and the Web Interface. Involved in daily maintenance, support and upgrades.
- ClearCase administration of interop environment for Windows and Sun 2.5/2.6 and HP-UX UNIX servers and applications (setup, installation, maintenance, implementation, etc
- Installation and migration of code bases to ClearCase from various other CM tools.
- Create and implement policy through documentation, scripts and triggers.
- Implementation and maintenance of ClearTrigger and ClearWeb.
- Mentored other CM team members in CM practices and methodologies.
- Product line CM including third party products provided to the program.
- Highly experienced in base ClearCase. Knowledgeable experience in both UCM and MultiSite.
- Daily integration and development builds, release builds as required.
- Implemented process improvements and scripting updates, as well as the implementation of long term CM objectives
- Project Management of Component Release, including creating and managing Microsoft Project Plan, Release Metrics, Software Problem Resolution and Resource Scheduling.
- Installation Development – develop a GUI based UNIX installation program using InstallShield for the company's core product line.
- Website development – automated builds; build management: requests, history, status; automated account creation; Product distribution; Information assistance: policies, procedures & training; Self Help: FAQ's & Forums
- Documented and improved work instructions including build procedures and tools administration.

Hughes Training, Inc /Raytheon – Grand Prairie, TX.

1997-1999

ANALYSR/PROGRAMMER I

- Assisted the CM and QA departments by working directly with developers.
- Responsible for Classified builds for flight simulators running on SGI Onyx servers.
- Creating/packaging drives for shipment to sites worldwide, updating release documentation and other Configuration Management tasks.
- Updated release documentation using FrameMaker and ClearCase
- POC for troubleshooting problems with of ASTi and SGI drive components on F-16 flight simulators being built.
- Developed and maintained database applications for software discrepancy tracking and other applications.
